Exploring Extraordinary Relationships

A multi-day, vacation-based workshop in mastering relationships*

Los Cabos, Mexico

November 12-17, 2017

Workshop fee*: \$1095/twosome; \$735/single
(A \$400 non-refundable deposit is required to register.)

This workshop is one in a series of vacation-based **Exploring Extraordinary Relationships** workshops designed to produce mastery in relationships in everyday living.

The topic of this particular workshop will be **knowing your partner in your relationship** and how what you know – and what you don't know – affects your relationships. We anticipate that there may be some surprises like "we had no idea that we had no idea that...", as expressed by Barry and Penny Berman in a recent Exploring Extraordinary Relationships workshop.

"Exploring workshops offer the view of relationship as an adventure." – Jeannie Church & Jonathan Siegel

The venue for this workshop is the **Royal Solaris Resort**, an all-inclusive resort which offers 4 restaurants (including 2 full service restaurants), a variety of dinner buffets with live entertainment, 4 pools, tennis court, and enough activities to keep you entertained all day – all included and presented by a super friendly staff.

*In addition to the workshop fee, the all-inclusive price is \$1664/twosome/week, and includes transportation to and from the airport, ocean view room, all meals, snacks and beverages (incl. adult beverages), and all resort facilities, entertainments and services, except the spa. Travel expenses are not included. Local adventures (fishing, horseback riding, ATVs, golf, etc.) are available at additional cost. A 15%-20% discount is available for early registration, and if you attend a 120-minute Club Solaris membership presentation during the week, we can reduce the price by an additional \$210.

***Pre-requisite: you must have completed the Relationships: The Real Deal workshop.**
